Hi Ellaine,
Please see email below to one of our sales reps from Mandy Burrows re sponsorship of Derm Club on 8th May. I am trying to recall why there are no Derm Clubs included in the new contract, but it seems to be there in one version and gone in the next, so I'm not sure if we decided against it, or whether you found another sponsor for most of them.
Do you remember? I would have to check with Mark about sponsoring this one, and whether we intentionally omitted Derm Club from the contract.
Kind regards,
[redacted]

Hi [redacted]

Is it you that I ask about the below email?

Cheers

Hi [redacted]

How are you? I hope all is well your end
I am hoping that I could ask you for  a favour

I need sponsors for Dermclub this year and I was hoping that Hills would be in a position to assist with sponsoring one session

As you are well aware, Dermclub brings valuable CVE in dermatology to practitioners of Western Australia as a not-for-profit event, but we do have costs associated with the food and drink that we provide, as well as the printing costs of notes, venue hire and the cost of office staff to run the event. Hence the sponsorship that is being sought by the CVE office is approximately 1500 per session

I need a sponsor for a session that is due to be held on May 8, and as the topic has not yet been announced, I would be very willing to adapt any topic that would assist the company to deliver a message regarding the positioning of a product. Of course that would not mean that the discussion would not be an objective, or evidence-based one, but there are many good things to discuss, such as hydrolysate diets

Incidentally I am speaking at the AVA meeting in Cairns and I have a session titled reality therapeutics.....and it is a synopsis of my favourite products and why....and Hills zd is in the lecture

Anyway, I look forward to hearing from you

Best wishes

Mandy
