# The ‘Weight’ is Over

3.138

Hill’s Pet Nutrition recently launched a new weight loss diet, Hill’s ***Prescription Diet™ Metabolic Advanced Weight Solution***. Metabolic works to increase a pet’s natural ability to regulate appetite and burn excess body fat, resulting in more effective weight loss than with traditional therapeutic weight loss foods.

**You are invited to attend a seminar on this breakthrough concept in weight management:**

Date: Monday 15th September

Speaker: Dr Mark O’Byrne, Professional Veterinary Affairs Manager for Hill’s Pet Nutrition in Australia

Venue:

Time:

Hill’s PRESCRIPTION DIET
