Hi Ian and Ellaine. Here is what I've had back from Sue Bennett regarding the Hill's Buddy Prize.

Please see her comments on fairness of the prize.

Frankie

HI Frankie

Last year, I consulted with SAP teachers and worked out a winner for this and other SAP related prizes and then my decisions were overridden. I think Ian decided. I am very happy to decide/lead the decision process but only if I know I'm truly the person responsible, otherwise it will cause annoyance to the other staff and grief to me (who they will get annoyed with).

Another thing, we don't assess nutrition on it's own so I can't in all fairness decide a prize for performance in nutrition. Could we call it "best performance in SAM, or in SAP?" – what are the other small animal prizes – can work something out from that.

Sorry, I guess you thought that was going to be easy – should I pop up and talk to you?
