Hey

Can I also have the percentage of food that is ordered for the hospital feeding program, that is covered by the Hill's $15,000 in-kind contribution.

Thank you

Ellaine

Subject: Hill's stuff

Hi Mark

Just wondering if you can please coordinate the following information from the hospital in order for our annual sponsorship report to them to be completed.

- How many discharge letters had the Hill's Prescription Diet info added on, from 1 June 2011 to 30 June 2012, then from 1 July 2012 to now.
- The Caseload by Department report for the same timeline.
- The $ amount (wholesale) spent on hospital patient feeding. And the amount and types of food ordered.

I have been requesting this information since mid July, so it is now very important that I have this information by the end of this week.

Our sponsorship agreement with them is currently being negotiated. It is very important that we can prove that we are giving them appropriate levels of benefit, in order for them to consider supporting us at the same level into the future.

Thank you for your help with this Mark.

Kind regards
