Dear Dr. Louche,

Your work is wonderful. I would have suggested Biosystems for your Cybernetics paper but I've been fired from editorial board.

We are feeding Rosenthal (our <sup>air-dub-beagle</sup> ~~terrier~~ <sup>air-dub-beagle</sup> hybrid) bones, thanks to you.

I'll try asking some publishers but your best bet is to print it yourself & distribute it to those interested -- or to find a rag of a <sup>local</sup> vet. journal head up for contributions & make lots of reprints. If you ~~can~~ write this up as a book proposal send it to our agent:

Brookman Associates  
John Brookman, Inc  
5 E 59<sup>th</sup> St  
New York NY 10022

He is the master at publishing avant garde  
science-related books to popular interest.

FAX 212 935 5535  
TEL 212 935-8900

But he's very tough.

Please excuse my failure to answer  
sooner but I'm terribly overcommitted.

Keep up the good work.

Sincerely

Dyan Masys
